PROJECTS

GameOn — Sports Community & Venue Booking App | *End-to-End Mobile UX Case Study*

- Designed a complete mobile application enabling sports enthusiasts to discover players, book venues, join tournaments, and schedule games.
- Led user research and synthesized findings into personas, user journeys, and information architecture to guide design decisions.
- Produced wireframes and interactive, clickable prototypes in Figma to validate core user flows before development handoff.
- Built a reusable, scalable design system to ensure visual and interaction consistency across the app.
- Applied WCAG accessibility standards throughout the design and documented the full process in a portfolio-ready UX case study.

Branding & Visual Design Projects | *Visual Identity & Marketing Design*

- Designed logos and end-to-end brand identity systems for multiple concepts.
- Created marketing posters and social media creatives aligned with brand guidelines.
- Strengthened visual consistency across deliverables using structured typography, spacing, and color systems.

EXPERIENCE

Self-Initiated UI/UX Design Projects | *Independent Practice*

- Executed complete design workflows end-to-end, from research and ideation through to final prototype.
- Participated in peer design reviews to critique and refine usability and visual design decisions.
- Built and published portfolio-ready UX case studies demonstrating structured, user-centered design thinking.

EDUCATION

Post Graduate Program in Design & Media (UI/UX) | *ICAT College of Design and Media, Bengaluru*

Bachelor of Computer Applications (BCA) | *Bhandarkar's Arts & Science College, Kundapura*
